ANANYA IYER

Java Backend Developer

ananya.iyer@example.com | +91 90000 00011 | Chennai, India | github.com/ananya-example

Summary

Java developer with 3+ years of experience building microservices and enterprise APIs with Spring Boot. Comfortable with relational databases, message queues and CI/CD pipelines, and used to working in Agile teams.

Technical Skills

Languages: Java, SQL, JavaScript
Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, Microservices
Databases: MySQL, PostgreSQL, MongoDB, Redis
Tools: Maven, Git, GitHub, Jenkins, Docker, JUnit, Mockito, Postman, Swagger, Kafka, Linux
Practices: REST API design, Agile, Scrum, code reviews

Professional Experience

Software Engineer, Finserve Systems

Jul 2023 - Present

- Developed 8 Spring Boot microservices for a loan processing platform handling 20,000 requests a day.
- Designed REST APIs documented in Swagger and secured them with Spring Security and JWT.
- Used Hibernate and JPA with MySQL and tuned slow queries, cutting response time by 35%.
- Published and consumed events with Apache Kafka for the notification service.
- Wrote unit tests with JUnit and Mockito (85% coverage) and set up Jenkins build pipelines.

Associate Software Engineer, Cartwheel Infotech

Jan 2023 - Jun 2023

- Fixed bugs in a Java Spring MVC application and wrote SQL reports for the support team.
- Learned Maven, Git and Agile practices while working in a team of 6.

Projects

- **Online Bookstore:** Spring Boot, MySQL and Thymeleaf web app with login, cart and order history.
- **Task Scheduler Service:** Java service using Kafka and Redis to schedule and retry background jobs.

Education

B.E. in Computer Science, Example College of Engineering, Chennai (2019 - 2023), CGPA 8.5

Certifications

- Java SE 11 Developer Certification
- Spring Boot Microservices course (online)
