Karthik Reddy

DevOps Engineer

karthik.reddy@example.com | +91 90000 00012 | Hyderabad, India | linkedin.com/in/karthik-example

Profile

DevOps engineer with 5 years of experience automating deployments and running containerized workloads on AWS. Focused on reliability, infrastructure as code and clear monitoring.

Core Skills

Cloud: AWS (EC2, S3, IAM, VPC, EKS)
Containers: Docker, Kubernetes, Helm
Infrastructure as Code: Terraform, Ansible
CI/CD: Jenkins, GitHub Actions, GitLab CI
Monitoring: Prometheus, Grafana, ELK stack
Scripting and OS: Bash, Python, Linux, Nginx, Git

Work Experience

DevOps Engineer, CloudNimbus Solutions

May 2023 - Present

- Moved 15 services from virtual machines to Kubernetes on AWS EKS, cutting infrastructure cost by 30%.
- Wrote Terraform modules for VPC, EC2 and S3 so new environments are ready in under 20 minutes.
- Built CI/CD pipelines in Jenkins and GitHub Actions, reducing deployment time from 45 to 10 minutes.
- Set up Prometheus and Grafana dashboards with alerts, lowering incident response time by 40%.
- Automated server patching with Ansible and Bash scripts.

Systems Engineer, TechBridge Infra

Aug 2021 - Apr 2023

- Managed Linux servers and Nginx web servers for 30+ client applications.
- Wrote Python and Bash scripts for backups and log rotation.
- Introduced Docker-based deployments to replace manual releases.

Selected Projects

- **Blue-Green Deployment Demo:** Jenkins pipeline that deploys a Dockerized app to Kubernetes with zero downtime.
- **Infrastructure Starter Kit:** Reusable Terraform templates for a VPC, subnets and an EKS cluster.

Certifications

- AWS Solutions Architect Associate
- Certified Kubernetes Administrator (CKA) training

Education

B.Tech in Electronics and Communication, Example Institute of Technology (2017 - 2021)
